

# Data Collection Disclosure

This page informs you of the data that is collected and transmitted by VicOne's security products, as part of providing you with the security functions of these products.

## xAurient

xAurient is VicOne's action-ready automotive threat intelligence platform. It delivers contextual, AI-powered threat intelligence by continuously monitoring over 7,000 dark web, deep web, and open-source intelligence (OSINT) sources. xAurient maps threats to vehicle components and aligns with ISO/SAE 21434, UN R155, and the Auto-ISAC Automotive Threat Matrix (ATM).
